PROMOTION, IMPROVEMENT AND DROP OUT

Result of a BBA student will be determined on the basis of Grade Point in a 4-point scale along with Letter Grade. However, to determine the Letter Grade/Grade Point the following range of marks will be considered:

Marks Range	Letter Grade	Grade Point
80% and above	A+	4.00
75% to less than 80%	A	3.75
70% to less than 75%	A-	3.50
65% to less than 70%	B+	3.25
60% to less than 65%	B	3.00
55% to less than 60%	B-	2.75
50% to less than 55%	C+	2.50
45% to less than 50%	C	2.25
40% to less than 45%	D	2.00
Less than 40%	F (Fail)	0.00

Promotion: Results of two semesters in each academic year will be calculated for promotion to next year (1st year to 2nd year). The student must appear at the semester final examination in all courses and pass at least 60 percent of the total courses for example, 6 (six) out of 10 (ten) courses with a grade of D or above. Same rules will be applicable for promotion to the subsequent years that is, 2nd to 3rd and 3rd to 4th year.

Improvement: Students receiving F grade in one or more courses must take the improvement examination(s) in subsequent semesters. Two chances will be given to convert F grade into any countable grade. If the students receive a countable grade, in that case he/she will not be allowed to further improve his/her grade. Moreover, the improved grade would not be higher than B Plus. Students can attempt to improve their grade from D to B minus. However, students cannot take the improvement exam for more than two courses in a particular year. Students will not be allowed to improve their In-course, Oral (viva voce) and Internship/Project paper) grade in any circumstances.

Drop Out: Any Student fails to qualify for the BBA degree within the seven academic years including Project Paper Defense, he/ she will automatically be dropped from the program.

Mid–Term Exam: It is mandatory to participate in mid-term exams. Without participating internal mid-term exams, no student will be entitled to participate in semester final exam.

COMPUTER SCIENCE AND ENGINEERING (CSE)

As we live in a digital age most industries rely on data and software programs. CSE impacts everything from scientific research to health development, transport, banking, communications, you name it. The most important aspect of CSE is problem solving, an essential skill for life.

The Bachelor of CSE program is a professional undergraduate program for individuals also who plan to develop their career as junior level IT Professionals.

The primary emphasis of the program is to develop knowledge and skills among the candidates to undertake practical operations of business enterprises. This program will also be helpful to those who plan their career in Government, Semi-government and Non government organisations.

The objective of the CSE Professional Program is complete grooming of a student's personality by providing a balanced study in the field of business and other related subjects. The purpose is to develop an executive personality and to produce strong operative skills among the graduates so that they can carry out organisational functions efficiently and effectively.

The following section describes the specific contents of the CSE Professional Program entry and graduation requirements. CSE Professional Program is a four-year program where teaching and examination of allocated courses for a specific semester would be finished within six months. Students will automatically be transferred to the next semester after examination pending the result. The basic structure of the four-year CSE Professional Program is as follows:

ASSESSMENT CRITERIA

There will be at least two in-course examinations and one home assignment to be conducted by the course teacher for his/her course and marks along with grade be submitted to the Head of the Department for compilation and subsequent submission to the Controller of Examinations of the National University. Only semester final examinations will be conducted by the National University on six monthly basis for each semester. The routine for final examination will be spread in such a way that those sitting for improvements and retakes should not coincide. Two examiners will evaluate the final examination scripts and a third examiner will be appointed for difference of marks awarded exceed 20%.

Each lecture course examination will be for three hours. Viva- voce will be taken at the end of 4th year for 50 marks and the rest 50 marks for the project report. Two individual marks will be added together and the total will be considered to grade the full course. Two examiners will examine the Project report (one internal/ supervisor and a second examiner/exter- nal). The examination committee as per normal convention of National University will conduct viva.

All lecture courses bearing 100 marks will be examined and marks awarded as follows:

	Duration	Marks	Examined by
First Mid Term	1 hour exam	20	Course Teacher
Second Mid Term	1 hour exam	20	Course Teacher
Final Examination	3 hour exam	80	Two Examiners
Total		100	

EVALUATION

Computation of Grade Point Average will be made on the basis of following illustration:

$$\text{GPA} = \frac{\sum (\text{Credit} \times \text{Grade Point})}{\text{Total Credits}}$$

Example:

FIRST SEMESTER

Course No.	No. of Credits	Grade Awarded	Corresponding Grade Point	Points Secured
	Col. 1	Col. 2	Col. 3	Col. 4=(Col.1 X Col.3)
510201	3	A+	4.00	12.00
510203	3	A	3.75	11.25
510204	3	A-	3.50	10.50
510205	3	B+	3.25	9.75
510206	3	B	3.00	9.00
TOTAL	15			52.50

EARNED CREDIT (EC) = 3+3+3+3+3 = 15

$$\text{GPA} = \frac{52.50}{15} = 3.50$$

PROMOTION, AWARD OF DEGREE, IMPROVEMENT AND DROP OUT

Result of a CSE student will be determined on the basis of Grade Point in a 4-point scale along with Letter Grade. However, to determine the Letter Grade/Grade Point the following range of marks will be considered:

Marks Range	Letter Grade	Grade Point
80% and above	A+	4.00
75% to less than 80%	A	3.75
70% to less than 75%	A-	3.50
65% to less than 70%	B+	3.25
60% to less than 65%	B	3.00
55% to less than 60%	B-	2.75
50% to less than 55%	C+	2.50
45% to less than 50%	C	2.25
40% to less than 45%	D	2.00
Less than 40%	F (Fail)	0.00

For promotion, results for two semesters in a year tabulated together will be considered for a year to year basis promotion. For getting promotion from one year to the next year, the student must appear in the final examinations, at least partially, so that he/she earns a GPA of 1.5 in the first year and then on GPA of 2.0 for second and third year (combined for two semesters in each year). In case of calculating GPA for promotion purposes, improvement marks in that relevant year will not be considered. In case he/she fails (F grade) in any or more course(s), he/she will have to appear in the final examination of that/those course(s) in subsequent semesters (two chances will be given to convert F grade into any countable grade). Where a student remains absent in any of the examinations which is countable towards GPA calculation, each absent will be deemed to have earned Zero marks (Grade Point 0.0) for him/her and the credit for relevant course be deemed to have been taken. In any case, a student will not be allowed to sit for further regular examinations when his status is confirmed as not having earned the requisite pass number. In such a case he/she will have to seek for re-admission and continue with the next available batch as usual. A student can pre-empt his/her not getting promotion and seek for readmission well in advance to re-start with the next batch. In this process, he must pass all the lecture courses within a maximum period of six academic year.

A student of CSE eligible for appearing in improvements in the fourth year courses will also not be allowed to cross the statutory period of six years in the process. If he/she crosses the statutory period of six years, he/she loses his/her chance to improve the grades. For Viva and Project Paper Defense only, an additional time for a maximum period of six months may be allowed. No improvement examination will be allowed for Viva and Project Paper Defense. If he/she fails to qualify for the degree within six consecutive academic years and an additional

period of six months for Viva and Project Paper Defense, being a regular student, he/she will automatically be dropped from the program. A regular student can get himself re-admitted for a maximum of two times. In such cases too he/she also must earn the degree within a maximum period of six consecutive academic years with an additional time of six months for Viva and Project Paper Defense. Rules for non-collegiate students are to be determined and applied separately by the National University.

A student earning D or more can opt for appearing in the Improvement Examination (except for Viva and Project Paper Defense) with next immediate available batch only, but only once for one course. In that case the earlier grade (and also the relevant marks, if any) earned in the course will be deleted. All midterm and assignment marks will remain unchanged in case of a student appearing in any improvement examination (i.e., improvement will depend only on the course final examination). In case of re-admitted students, the marks obtained earlier in the same semester courses only will be deleted from his/her record. However, a student will be usually readmitted in First, Third, Fifth, or Seventh semester only. In both the cases of retaking a course for failure or for improvement, a student must apply in specific form to the Controller of Examinations through the Head of the Department and through the Principal within 15 days of the publication of the provisional result. Semester results or yearly results (if combined for two semesters) will be considered as provisional.

After all, classroom time is limited, so teachers are often unable to provide instruction beyond the required material. Departmental labs can function as a space for students to master everything from basic typing skills to advanced editing skills all on their own.

As CSE is related to software and hardware perspective, the students need to get hands on impression of every topic. That's why our department is enriched with both hardware and software lab run by expert teachers and demonstrators. The syllabus consists of different lab courses with their theoretical part. So students have to cover up and practice to get the knowledge of those courses.

Our hardware lab has all the required equipment for practicing the hardware related courses. Students can learn by using them directly and practicing more. Our software lab has latest computers that support every software related to the course and also for extra learning. Students can even use the computer lab after class for more practice.
